We believe in a balanced charging system. This means that we do not offer cheap vaccination prices to then make up costs on other services. We do not believe in "hidden charges". All of our consultation and vaccination prices include a full health examination and a longer than "normal" appointment time. However, you can save money and pay monthly for your cat's essential preventative care with our **Pet Health Plans**.

Current prices as of 01 February 2012. We reserve the right to change prices without prior notice.
